Estevan Brick Ltd.

About this record creator

Administrative History

Estevan, Saskatchewan's brickmaking industry began as an offshoot of the coal industry in 1902. The first plant started in 1906 as a private company, Eureka Coal and Brick Co. In 1912 the plant was sold and renamed Estevan Brick and Coal Company. In 1918 it was sold again and renamed International Clay Products.

As Estevan clay was unsuitable for refractory (fire) bricks, the plant focused exclusively on face and common brick during its early years. In the 1920s, as part of a general plant expansion, the plant expanded its product line to include "Scots Gray" building tile, terra-cotta, quarry floor tiles, and pottery (wine jugs). This necessitated shipping in clay from Eastend for blending with Estevan clay.

In 1932 the plant closed due to the Great Depression. In 1945 the Saskatchewan government purchased the plant and reopened it as a Crown Corporation operating under the name Saskatchewan Clay Products. In 1964, the plant underwent another name change, to Estevan Clay Products Division. In 1965, the daily management of the plant was handed over to Industrial Management Ltd. The plant, which underwent another name change to Estevan Brick Ltd., became a limited liability company with the province as majority shareholder.

This structure continued until 1969, when the plant was sold to Peben Contractors Ltd. The revamped company, called Estevan Brick, introduced new product lines, including what was reputed to be the

whitest brick produced in North America. In 1978 Estevan Brick became a division of Thunderbrick Ltd.. In 1992 it was sold again to Canada Brick, and in 1995 it was sold a final time to I-XL Industries Ltd. It was incorporated in 1995 as Estevan Brick (1995). In 1997 the plant was closed due to shrinking markets.

The plant's face brick can be found in a number of buildings in Western Canada and North Dakota, including the Estevan Court House (now a provincial heritage site), the Federal Building in Regina, the Assiniboia Court House, the Saskatoon Normal School, the Power Station at Estevan, and the SaskPower building in Regina. An official edict from the province, brought in in 1965 during the years of W. Ross Thatcher, ordered that buildings constructed with public money be built from Saskatchewan brick; hence many public buildings constructed during this period contain bricks from the Estevan brick plant. Much of the snow-white brick was sold in the province of Quebec.

Estevan Brick Ltd. fonds

About these records

<i>Title</i>	Estevan Brick Ltd. fonds
<i>Dates of Creation</i>	1933-1979
<i>Physical Description</i>	175.7 cm of textual material 76 sheets of architectural drawings 1 photograph 1 cartographic item 2 rolls of microfilm.
<i>Administrative History</i>	<p>Estevan brick plant operated as a private company under a number of names from 1902? to 1932, as a Crown Corporation under the name Saskatchewan Clay Products Limited from 1945 to 1964, as a Crown Corporation under the name Estevan Clay Products Division from 1964 to 1965, as a limited liability company with the Saskatchewan government as primary shareholder under the name Estevan Brick Ltd. from 1965 to 1969, and as a private company, owned by a number of parent corporations, under the name Estevan Brick Ltd. from 1969 to its closure in 1997.</p> <p>Office of Origin:</p> <p>Primary Agency: Saskatchewan Minerals</p> <p>Date: 1945-1969</p> <p>Secondary Agency: Saskatchewan Clay Products</p> <p>Date: 1945-1965</p> <p>Secondary Agency: Estevan Brick Ltd.</p> <p>Date: 1966-1969</p>

Immediate Source of Acquisition

These records were acquired from the Heritage Branch of the Department of Municipal Affairs and Housing in 1998.

Custodial History

One pallet of material was delivered to the Claybank Brick Plant National Historical Park from an unknown donor.

Research has revealed that the most likely source for this material was Willett Manufacturing Ltd., a metal fabrication company that makes threaded pipe nipples. Willett Manufacturing Ltd. purchased the physical location of the Estevan brick plant and proceeded to modify the grounds to suit its own needs in 1997, just shortly before Municipal Affairs received the records.

Scope and Content

Fonds consists of material gathered from 1933 to 1979, during the period when Estevan Brick was owned by a private company, during the period when the Estevan brick plant was a wholly-owned Crown Corporation of the Province of Saskatchewan operating under the name Saskatchewan Clay Products, during the period when the Estevan brick plant was operated by a private company with the Province of Saskatchewan as the chief stockholder of the corporation Estevan Brick Ltd, and during the period when the Estevan brick plant was owned by a private company.

Included are accounting records and journals, statistics, supplies records, personnel records, payroll records and journals, plant repair and maintenance records, sales records and journals, quotations, production records, cost sheets, stores ledgers and disbursement ledgers.

The fonds consists of five series: Letter Series Files, Architectural Drawings and Photographs, Accounts Receivable, Production Records, Plant Maintenance and Administration, and Ledgers. There are also architectural drawings relating to plant maintenance and repairs, one cartographic item relating to clay, and one photograph relating to advertising.

<i>Access Restrictions</i>	Some of these records are subject to access restrictions. See reference archivist for assistance.
<i>Terms Governing Use</i>	Use, publication, and/or reproduction of these records are subject to the Copyright Act.
<i>Reference Tools</i>	<p>Consult SAFA 5 for manual file lists of textual records, lists of microfilmed records, architectural drawings lists, and lists of photographs.</p> <p>For access to file-level textual records database, architectural drawings database, cartographic records database, and photographs database, see reference archivist for assistance.</p>
<i>Conservation note</i>	Some records were exposed to adverse environmental conditions and microfilmed.
<i>Accruals</i>	No further accruals are expected.
<i>Consulting the Records</i>	To consult the records, visit the Regina office.
<i>Arrangement Note(s)</i>	<p>Whenever possible, the original numeric or alphanumeric arrangement employed by employees of the Estevan Brick Plant was retained.</p> <p>Records acquired with no discernable order have been arranged according to chronological or alphabetical order.</p>

Operational Records series

About these records

<i>Title</i>	Operational Records series
<i>Dates of Creation</i>	1948-1966
<i>Physical Description</i>	50.5 cm of textual records 29 sheets of architectural drawings 1 photograph
<i>Administrative History</i>	<p>Estevan brick plant operated as a private company under a number of names from 1902? to 1932, as a Crown Corporation under the name Saskatchewan Clay Products Limited from 1945 to 1964, as a Crown Corporation under the name Estevan Clay Products Division from 1964 to 1965, as a limited liability company with the Saskatchewan government as primary shareholder under the name Estevan Brick Ltd. from 1965 to 1969, and as a private company, owned by a number of parent corporations, under the name Estevan Brick Ltd. from 1969 to its closure in 1997.</p> <p>Office of Origin:</p> <p>Primary Agency: Saskatchewan Minerals</p> <p>Date: 1945-1969</p> <p>Secondary Agency: Saskatchewan Clay Products</p> <p>Date: 1945-1965</p> <p>Secondary Agency: Estevan Brick Ltd.</p> <p>Date: 1966-1969</p>
<i>Immediate Source of Acquisition</i>	These records were acquired from the Heritage Branch of the Department of Municipal Affairs and Housing in 1998.

Custodial History

One pallet of material was delivered to the Claybank Brick Plant National Historical Park from an unknown donor.

Research has revealed that the most likely source for this material was Willett Manufacturing Ltd., a metal fabrication company that makes threaded pipe nipples. Willett Manufacturing Ltd. purchased the physical location of the Estevan brick plant and proceeded to modify the grounds to suit its own needs in 1997, just shortly before Municipal Affairs received the records.

Scope and Content

Series consists of operational records created from 1948 to 1966, during the period when the Estevan brick plant was a wholly-owned Crown Corporation of the Province of Saskatchewan, under the name Saskatchewan Clay Products, and during the start of the period when the Estevan brick plant was operated by a private company with the Province of Saskatchewan as the primary shareholder of the corporation Estevan Brick Ltd. Subjects covered include accounts receivable records, corporate statistics kept for the Dominion Bureau of Statistics, supplies records, general files, sick pay files, correspondence with the minister in charge of Saskatchewan Clay Products, plant repair records and blueprints, and sales files. This series consists of nine sub-series: AR (Accounts Receivable), DBS (Dominion Bureau of Statistics), DMS (Direct Materials and Supplies), Gen (General files), GFO (Government Finance Office), LA (Leave and Attendance), MR (Ministerial Records), PR (Plant Repair) and S (Sales). This series was arranged using the alphanumerical system of arrangement originally used by employees of the Estevan brick plant.

Access Restrictions

Sub-series LA (Leave and Attendance) is subject to access restrictions. See reference archivist for assistance.

Terms Governing Use

Use, publication, and/or reproduction of these records are subject to the Copyright Act

Reference Tools

Consult SAFA 5 for manual file lists of textual records, lists of microfilmed records,

architectural drawings lists, and lists of photographs.

For access to file-level textual records database, architectural drawings database, cartographic records database, and photographs database, see reference archivist for assistance.

Accruals

No further accruals are expected.

Consulting the Records

To consult the records, visit the Regina office.

Arrangement Note(s)

Series was arranged according to an original alphanumeric record keeping system utilized by the Estevan Brick plant.
