## **Scope and Content**

This series consists records that document the activities related to the issuing of grants on patented land for the North-West Territories and the Province of Saskatchewan. Activities reflected in the records include the management of enquiries, application forms, payments, agreements, and recording the disposition of lands.

The types of records included are original and copies of correspondence, agreements, survey reports, comparative land reports, announcements of land availability, technical drawings, appraisal and inspection reports, registration abstracts, survey photographs and drawings, tax notices, wills and other documentation.

## Introduction

The Lands Branch of the Saskatchewan Department of Agriculture was created in 1947. Its purpose was to administer all agricultural and pastoral land governed by *The Provincial Lands Act* and *The Land Utilization Act*. Prior to 1947 much of this land had been administered by the Department of Natural Resources and Industrial Development. On August 1, 1988 the Lands Branch was transferred to the Department of Rural Development in an attempt to integrate "rural services" into one agency. On March 18, 1993, the Department of Rural Development was abolished and the Lands Branch was transferred back to the Department of Agriculture.

The Department of Agriculture, on behalf of the Crown, issues Grants on unpatented land and Transfers on patented land. Thus, if a title has previously been issued on a certain parcel of land, the Crown "transfers" the title to the new owner. If no title has been issued previously, the Crown "grants" the title to the new owner.

This collection documents land transfers administered by the Lands Branch between 1981 and 1987. The files contain a number of items such as: the Transfer of Title; correspondence between the Lands Branch and prospective bidders; correspondence between the Lands Branch the Rural Municipality; and, in many cases, correspondence between the Branch and the money lender. Because, in many instances, the lands were put up for sale due to tax arrears, the files may also contain financial information about former tenants of Crown Lands. In addition, a large number of the files contain correspondence with the Premier's Office.

Most of the transfer files contain a copy of the title granting ownership of the lands to the government, as well as correspondence between the lessees and the government. Therefore, the inclusive dates of these files cover a wide time frame.

In addition, several files contain surveys and blueprints done for the federal government during the early period of settlement. Other blueprints were done for local governments or private companies. Any material transferred to the Maps and Drawings section of the Saskatchewan Archives Board has been indicated. Photocopies were left in the files if size permitted.

Some files have inclusive dates as late as 1992. In many cases, the Lands Branch sold the land but delayed paying the tax arrears. Thus, some files contain correspondence dated after the land was transferred.

## **Introduction**

The Department of Agriculture was established in 1905. In 1989 the name of the department was changed to the Department of Agriculture and Food.

The Lands Branch of the Department of Agriculture was established in 1947. The branch was responsible for administering all agricultural and pastoral land governed by The Provincial Lands Act and The Land Utilization Act. Prior to 1947, most of this land was administered by the Department of Natural Resources and Industrial Development.

The Department of Agriculture, on behalf of the Crown, issued grants on unpatented land and transfers on patented land. Thus, if a title had previously been issued on a specific parcel of land, the Crown "transferred" the title to the new owner. If a title had never been issued previously, the Crown "granted" the title to the new owner.

On August 1, 1988 the Lands Branch was transferred to the Department of Rural Development in an attempt to integrate "rural services" into one agency. On March 18, 1993 the Department of Rural Development was abolished and the Lands Branch was transferred to the Department of Agriculture and Food.

The following collection contains Grant files nos. 38522 to 39042 (not inclusive) and Transfer files nos. 3339 to 5205 (not inclusive). The grant and transfer files typically contain correspondence between the Lands Branch and the prospective bidder, rural municipalities, and Land Titles Office. Tenders, offers and agreements of sale and disposition synopsis are also included.

These records are subject to access restrictions. Researchers interested in consulting restricted material must apply to the Provincial Archivist, who will if necessary consult with the responsible department regarding terms of access. The researcher should be aware that some delay may result before a decision on access is made.

The collection was received by the Saskatchewan Archives Board on February 25, 2000 under the authority of Schedule No. 22 and accessioned as R2000-452. The records date from 1950 to 1995 and occupy 0.20 metres of space. Related collections at the Saskatchewan Archives include: R-264, R-507, R-1224, R-1235, R-1383 and R-1463.

## DEPARTMENT OF AGRICULTURE

Lands Branch

## I. Homestead Files.

In 1930, control of the natural resources of the three prairie provinces, previously under the jurisdiction of the Dominion Government, were transferred to the respective provinces. The active files pertaining to unpatented lands were transferred from the head office and the local agencies of the Department of the Interior to the Saskatchewan Government. It would appear that these groups of files were integrated into the Lands Branch records of the Department of Natural Resources. In 1947 this branch was transferred to the Department of Agriculture. These records thus contain some of the same documents as the homestead records of the Department of the Interior. However, after 1930, forms similar in content to those used by the Department of the Interior were established by the provincial officials.

In 1965 these Lands Branch records were transferred to the Archives of Saskatchewan. They were retained in a number of groups as received from the Branch.

## 6. Grant Files.

(Boxes 1-1179)

These files are arranged according to the land grant number assigned by the department. Some grant numbers consist of more than one file. There is no finding aid for these files and in order to locate a file it is necessary to obtain the grant number from the Lands Branch, Department of Agriculture. In making an inquiry it is necessary to provide the Lands Branch with the land location, and the name of the settler, if they are available.

See NR.4 for Records of the Provincial Lands Branch, Department of Natural Resources, Saskatchewan. Files 12-15 in this group are about the St. Laurent Settlement, Lac la Ronge Settlement, Isle a la Crosse Settlement, and the Sturgeon Landing Settlement.
