Scope and Content

This series consists of records that document the activities related to the issuing of transfers on patented land for the North-West Territories and the Province of Saskatchewan. Patented land refers to land for which title has previously been granted; the Crown 'transfers' title to the land to the new owner. Activities reflected in the records include the management of enquiries, application forms, payments, agreements, and recording the disposition of lands.

The types of records included are original and copies of correspondence, agreements, survey reports, comparative land reports, announcements of land availability, technical drawings, appraisal and inspection reports, registration abstracts, survey photographs and drawings, tax notices, wills and other documentation.

Records in this series are listed consecutively by transfer number within collections, with certain files also indicating the legal land descriptions in their title. The archival holdings for transfer files are incomplete.

Collection R-1235, series 2 consists of an incomplete run of transfers numbered from 2174 to 3499.

Collection R-1383 consists of an incomplete run of transfers numbered from 3522 to 4710.

Collection R-1463 consists of an incomplete run of transfers numbered from 2504 to 4683.

Collection R-1800, series 1 consists of an incomplete run of transfers numbered 3339 to 5205.

Collection R-1841 consists of an incomplete run of transfers numbered 4713 to 5458.

Collection Ag. 11, series I, sub-series 3 consists of an incomplete run of transfers numbered from 195 to 2271.

No sub-series have been applied to the series.

Access Restrictions These records are subject to access restrictions. Please consult reference archivist for assistance.

Terms Governing Use Use, publication, and/or reproduction of records are subject to Crown copyright. Please consult reference archivist for assistance.

Reference Tools SAFA 7 (old guides GR 6-1; GS 44) consists of a government series description and file listings of some of the textual records. These listings were produced in the old guide format and were completed prior to the adoption of new descriptive standards in 2002.

Additional Retrieval Codes Textual records: Old guide GR 6-1 (R-1235, series 2; R-1383; R-1463; R-1800, series 1); Old guide GS 44 (Ag. 11, series I, sub-series 3); R-1841

Consulting the Records To consult the records, visit or contact the Regina office.

Physical Description Note(s) Extent of architectural drawings represents the number of architectural and technical drawings identified in the collection descriptions as being transferred from the textual records (R-1235, 22; R-1383, 24) and retained within the textual records (R-1841, 7). The actual number of architectural and technical drawings within the series may differ.

Extent of photographs represents the number of photographs identified in the collection descriptions as being retained within the textual records (R-1847, 13). The actual number of photographs

within the series may differ.

Extent of maps represents the number of maps identified in the collection descriptions as being transferred from the textual records (R-1383, 1). The actual number of maps within the series may differ.

Arrangement Note(s)

Records in this series processed prior to 2004, were processed and described as discrete collections based upon the records available in the Archives' holdings at that time. As such, some collection descriptions overlap in the range of transfer numbers they cover and may also contain files with the same transfer number.

Records within the collection were arranged numerically (ascending) based upon the transfer number applied to the file by the creating agency.

Some of the factors determining the arrangement/sampling of the records of earlier acquisitions in this series were not documented during the description process.

General Note(s)

Location for retrieval: Regina - Henderson; Regina - Hillsdale; Regina - Maxwell

Some photographs, maps, technical and architectural drawings have been retained in the textual record to preserve context.

Introduction

The Lands Branch of the Saskatchewan Department of Agriculture was created in 1947. Its purpose was to administer all agricultural and pastoral land governed by *The Provincial Lands Act* and *The Land Utilization Act*. Prior to 1947 much of this land had been administered by the Department of Natural Resources and Industrial Development. On August 1, 1988 the Lands Branch was transferred to the Department of Rural Development in an attempt to integrate "rural services" into one agency. On March 18, 1993, the Department of Rural Development was abolished and the Lands Branch was transferred back to the Department of Agriculture.

The Department of Agriculture, on behalf of the Crown, issues Grants on unpatented land and Transfers on patented land. Thus, if a title has previously been issued on a certain parcel of land, the Crown "transfers" the title to the new owner. If no title has been issued previously, the Crown "grants" the title to the new owner.

This collection documents land transfers administered by the Lands Branch between 1981 and 1987. The files contain a number of items such as: the Transfer of Title; correspondence between the Lands Branch and prospective bidders; correspondence between the Lands Branch the Rural Municipality; and, in many cases, correspondence between the Branch and the money lender. Because, in many instances, the lands were put up for sale due to tax arrears, the files may also contain financial information about former tenants of Crown Lands. In addition, a large number of the files contain correspondence with the Premier's Office.

Most of the transfer files contain a copy of the title granting ownership of the lands to the government, as well as correspondence between the lessees and the government. Therefore, the inclusive dates of these files cover a wide time frame.

In addition, several files contain surveys and blueprints done for the federal government during the early period of settlement. Other blueprints were done for local governments or private companies. Any material transferred to the Maps and Drawings section of the Saskatchewan Archives Board has been indicated. Photocopies were left in the files if size permitted.

Some files have inclusive dates as late as 1992. In many cases, the Lands Branch sold the land but delayed paying the tax arrears. Thus, some files contain correspondence dated after the land was transferred.

RESTRICTED ACCESS

Introduction

The Lands Branch of the Saskatchewan Department of Agriculture was created in 1947. Its purpose was to administer all agricultural and pastoral land governed by *The Provincial Lands Act* and *The Land Utilization Act*. Prior to 1947 much of this land had been administered by the Department of Natural Resources and Industrial Development. On August 1, 1988 the Lands Branch was transferred to the Department of Rural Development in an attempt to integrate "rural services" into one agency. On March 18, 1993, the Department of Rural Development was abolished and the Lands Branch was transferred back to the Department of Agriculture.

This collection documents land transfers administered by the Lands Branch between 1987 and 1989. The files contain a number of items such as: the Transfer of Title; correspondence between the Lands Branch and prospective bidders; correspondence between the Lands Branch the Rural Municipality; and, in many cases, correspondence between the Branch and the money lender. Because, in many instances, the lands were put up for sale due to tax arrears, the files may also contain financial information about former tenants of Crown Lands. In addition, a large number of the files contain correspondence with the Premier's Office.

Most files contain a copy of the title granting ownership of the lands to the government, as well as correspondence between the lessees and the government. This material therefore covers a wide time frame, some dating back to the 1930's.

In addition, several files contain surveys and blueprints done for the federal government during the early period of settlement. Other blueprints were done for local governments or private companies. Any material transferred to the Maps and Drawings section of the Saskatchewan Archives Board has been indicated. Photocopies were left in the files if size permitted.

Some files have inclusive dates as late as 1992. In many cases, the Lands Branch sold the land but delayed paying the tax arrears. Thus, some files contain correspondence dated after the land was transferred.

These records have a 25 year restriction. Requests to view the finding aid and files must be referred to the Provincial Archivist who will, if necessary, consult with the originating agency to determine whether the records can be made available for research purposes. Access to these records may be delayed while a decision is made on whether access will be granted.

This collection of Transfer Files was transferred to the Saskatchewan Archives Board on June 3, 1992 under the authority of Schedule No. 22. It was accessioned as R92-113. It includes Transfer Files Nos. 3522 to 4710.

Related collections at the Saskatchewan Archives include: R-264, R-507, R-1224, R-1235 and R-1463.

RESTRICTED ACCESS

Introduction

The Lands Branch of the Saskatchewan Department of Agriculture was created in 1947. Its purpose was to administer all agricultural and pastoral land governed by *The Provincial Lands Act* and *The Land Utilization Act*. Prior to 1947 much of this land had been administered by the Department of Natural Resources and Industrial Development. On August 1, 1988 the Lands Branch was transferred to the Department of Rural Development in an attempt to integrate "rural services" into one agency. On March 18, 1993, the Department of Rural Development was abolished and the Lands Branch was transferred back to the Department of Agriculture.

This collection documents land transfers administered by the Lands Branch between 1987 and 1989. The files contain a number of items such as: the Transfer of Title; correspondence between the Lands Branch and prospective bidders; and correspondence between the Lands Branch the Rural Municipality.

Most files contain a copy of the title granting ownership of the lands to the government, as well as correspondence between the lessees and the government. This material therefore covers a wide time frame, some dating back to the 1880's.

Most of these files have inclusive dates as late as 1993. In many cases, the Lands Branch sold the land but delayed paying the tax arrears. Thus, these files contain correspondence dated after the land was transferred.

These records have a 25 year restriction. Requests to view the finding aid and files must be referred to the Provincial Archivist who will, if necessary, consult with the originating agency to determine whether the records can be made available for research purposes. Access to these records may be delayed while a decision is made on whether access will be granted.

This collection of Transfer Files was transferred to the Saskatchewan Archives Board on 21 February 1995 under the authority of Schedule No. 22. It was accessioned as R95-48. It includes Transfer Files Nos. 2504 to 4683 [incomplete]. This collection is comprised of further accruals from collections R-1235 and R-1383. Therefore, researchers wanting a more complete listing of Transfer Files should consult the checklists for those collections. Other related collections at the Saskatchewan Archives include: R-264, R-507, and R-1224.

RESTRICTED ACCESS

Introduction

The Department of Agriculture was established in 1905. In 1989 the name of the department was changed to the Department of Agriculture and Food.

The Lands Branch of the Department of Agriculture was established in 1947. The branch was responsible for administering all agricultural and pastoral land governed by The Provincial Lands Act and The Land Utilization Act. Prior to 1947, most of this land was administered by the Department of Natural Resources and Industrial Development.

The Department of Agriculture, on behalf of the Crown, issued grants on unpatented land and transfers on patented land. Thus, if a title had previously been issued on a specific parcel of land, the Crown "transferred" the title to the new owner. If a title had never been issued previously, the Crown "granted" the title to the new owner.

On August 1, 1988 the Lands Branch was transferred to the Department of Rural Development in an attempt to integrate "rural services" into one agency. On March 18, 1993 the Department of Rural Development was abolished and the Lands Branch was transferred to the Department of Agriculture and Food.

The following collection contains Grant files nos. 38522 to 39042 (not inclusive) and Transfer files nos. 3339 to 5205 (not inclusive). The grant and transfer files typically contain correspondence between the Lands Branch and the prospective bidder, rural municipalities, and Land Titles Office. Tenders, offers and agreements of sale and disposition synopsis are also included.

These records are subject to access restrictions. Researchers interested in consulting restricted material must apply to the Provincial Archivist, who will if necessary consult with the responsible department regarding terms of access. The researcher should be aware that some delay may result before a decision on access is made.

The collection was received by the Saskatchewan Archives Board on February 25, 2000 under the authority of Schedule No. 22 and accessioned as R2000-452. The records date from 1950 to 1995 and occupy 0.20 metres of space. Related collections at the Saskatchewan Archives include: R-264, R-507, R-1224, R-1235, R-1383 and R-1463.

DEPARTMENT OF AGRICULTURE

Lands Branch

I. Homestead Files.

In 1930, control of the natural resources of the three prairie provinces, previously under the jurisdiction of the Dominion Government, were transferred to the respective provinces. The active files pertaining to unpatented lands were transferred from the head office and the local agencies of the Department of the Interior to the Saskatchewan Government. It would appear that these groups of files were integrated into the Lands Branch records of the Department of Natural Resources. In 1947 this branch was transferred to the Department of Agriculture. These records thus contain some of the same documents as the homestead records of the Department of the Interior. However, after 1930, forms similar in content to those used by the Department of the Interior were established by the provincial officials.

In 1965 these Lands Branch records were transferred to the Archives of Saskatchewan. They were retained in a number of groups as received from the Branch.

I. 3. Transfer Files.

(Boxes 17-29; 1306-1315)

These are files transferring lands to other government departments such as the Department of Highways, the Department of Natural Resources, the Land Utilization Board, The Prairie Farm Rehabilitation Administration, etc. for government purposes. They are numbered from T 195 to T 1100 (Boxes 17-29) and T 995 to T 1400 (Boxes 1306-1315).
