About this records creator:

Authorized Heading	Provincial Council of Women of Saskatchewan, 1919-
Biographical Sketch / Administrative History	<p>The National Council of Women of Canada, founded in 1893, is a federation of organizations that work for change and improvement at community, provincial, national and international levels. To present day, the vision and mission of the National and Provincial Councils of Women has remained the same: to influence political decision-making and public attitudes for the well-being of society, through education and advocacy; and to empower all women to work together towards improving the quality of life for women, families, and society through a forum of member organizations and individuals. Provincial councils were deemed necessary since the provincial government has jurisdiction over education, health and welfare.</p> <p>The Provincial Council of Women of Saskatchewan was established in 1919. The Council consists of delegates from affiliated organizations and interested individuals who are concerned with issues relating to improving conditions for women, families, and communities. Study groups and committees meet to develop resolutions, which are then presented to the Government of Saskatchewan.</p>
